WEDNESDAY, OCT. 8, 187 Life and Death.

There may be more in thy philosophy Than 'ere thou dream'er of.

One of the most remarkable cases on record. of peculiar interest to metaphysicans. The mean-cul fraternity and people generally, has come within the observation of the people of Rosesiale lately, in the person of a Mrs. Powellson, who has been under the cure of Dr. Thorne for treat-ment of the disease of the liver and stomach.

The New York Tribune says that Hilton had ment of the disease of the liver and stomach. Mrs. Powellson is a widow, whose busband died violent spasms to take place, but nothing outside of the ordinary condition of such a state was ob | nication from the robbers. served until about six weeks ago, when the physical condition of the patient underwent a wondetful change, the body after each spassa becoming seemingly dead, while, according to Mrs.
Posselison's statement, the mind became freed entirely and journeyed into an unknown realm move in the matter when payment of the reward which she minutely describes.

Mrs. Powelison is well-known to the people of Rosedale, and a strict Methodist. Her veracity is unquestionable, and her statements, which may seem incredulous, and have nothing but her simple word as proof, are not to be scoffed at as a deception concected for the purpose of gaining notoriety, to delude people. She states things which are to her actual facts, and are believed in as sincerely as any physical fact is believed by a

When the spasm overcomes her she suffers intense pain; her medical advisor describes her contortions as terrible to behold. From this condition she passes into a state of seeming death, in which the most delicate instruments of the medical profession, in the hands of the experienced practitioner, fail to discover the slightest sign of animation. A compound stethoscope reveals a faint thrill in some of the arteries; not a pulsation or flow of blood, but simply a thrill. It is certainly not actual death, and yet is so present instruments, however delicate they may

While in the latter condition the wonderful occurrances which she afterwards describes took place. The first time that she became so affected lasted 30 minutes; the second three hours, and
the third 40 minutes. Since then the periods of
inamition have been from five minutes to three
the taken to the Court of Armente. There will
be taken to the Court of Armente. hours, and have continued for some time.

Mrs. Powellson states that on becoming so affected her mind or soul becomes detacked from pending on the final decision. her body, and clothed in the personality of the BEER AND THE COST OF IT.—From May I. 1878, to May 1, 1879, there were made and sold trip everything was that antil her husband took trip everything was that antil her husband took her by the hand and led her to the light. The place where the disembodied sprits live is similar place where the disembodied sprits live is similar and each keg, at retail averages 115 glasses of the control of

prime. He had a physical personality, capable of feeling a substance, and felt like an ordinary person to the touch. People were there decays to person to the touch. scribed as peeding no food nor physical pabulum to sustain life, and consequently had no need to lator for support. They were in schools studying and consequently seeking to advance in knowledge.

Mrs. Powellson is 41 years of age, with her mental powers in good condition when out of her peculiar state. Her case is a strange one, to

while she may linger for months, the probabili-ties are that she will die suddenly in the next few weeks. She has not eaten enough to keep ber alive under ordinary circumstances, and makes her assertions with the knowledge that her death within a short time is certain. - [Kan- CONTRACTOR & BUILDER sas City Journal.

A Boy Who Gave His Note.

A Boston lawyer was called on a short time ago by a boy, who inquired if he had any waste paper to sell. The lawyer had a crisp, keen way of asking questions and is moreover a methodical man. So palling out a large drawer he exhibited his stock of waste paper.

"Will you give me two shillings for that?"

The boy looked at the paper doubtingly a moment, and offered filteen pence.

"Home" said the larger and the paper and the paper

"Done," said the lawyer, and the paper was quickly transferred to the bug of the boy, whose eyes sparkled as he lifted the mighty mass, Not till it was safely stowed away did be an-

noonce that he had no money. To this statement the lawerer responded:

"No money! How do you expect to buy pa Planing and Sawing, per without money?"

Not prepared to state exactly his plan of operations, the boy made no reply. "Do you consider your note good !" asked the

"Yes, sir."

"Very well; if you consider your note is good.

I'd just as soon have it as the money; but if it isn't good I don't want it." The boy affirmed that he considered it good; whereupon the lawyer wrote a note for fifteen

pence, which the boy signed legibly, and, litting the bug of paper tradged off. Soon after dinner the little fellow returned. and producing the money, announced that he had

come to pay his note. said the lawyer, "this is the first time that I ever knew a note to be taken up the cay it was given. A boy that will do that is entitled to note and money too; and, giving him both, ent him on his way with a smiling face and

The boy's note represented his honor. A boy who thus keeps his honor bright, however poor be may be in worldly things, is an heir to an inheritance which no riches can buy—the choice promises of God.—[N. Y. School Journal.

WE are accustomed to regard the great trees of California as the most gigantic specimens of vegetable growths known to man, but such is not the case (says the Journal of Chemistry.) There is a submarine plant growing in the North Pacific Ocean which, according to Profeasor Reinsch, dwarfs all others in its vast proortions. The Macrocystis pyrifers, one of the Melanosperam, has been known to grow to such as extent as to cover west areas of the ocean bed. One specimen, by measurement, was found to cover three equare miles, and the stem from which the growth proceeded was eight feet in diameter. It is almost impossible to conceive of such a plant, or how such a system of nourishcan be maintained through such an extended channel in the living organism. Nature performs strange freaks, and certainly none can be stranger than the fact that of this gigantic species there are some specimens so small as to be microscopic, or only to be seen by some powerful objectives.

The Pollowine story is from the World:

"The Prince of Wales and Dr. Lyon Playfair
were standing near a candron containing lead
which was boiling in white heat. Has your SOLE AGENTS FOR THE BAIN WAGON

Important Insurance Decision. From the Baltimore (M.) Ganette, June 13, 1879.7

The case of the Mecchants' and Miners' Trans portation Company, owning the line of steam-ships piving between Baltimore and Buston, vs. the Firemen's Insurance Company, of a policy of insurance on the steamer George Appold, and involving the question of general average, was decided in the Superior Court by Judge Dobbin. Some time since the steamer, while I ying at her wharf is Savannah, Ga., laden with cotton, took fire. To save the ressel and cargo she was flooded with water. The loss by damage to the vessel and cargo by fire and water was about \$12,000. The damage to the cargo was adjusted by general average, the vessel bearing its pro-portion. The plaintiffs claimed they were not only entitled to recover for the actual injury to the vessel by fire but the general average assess-ment properties. much skin to it as not to be detected by the ment upon the ship os an immediate and proximate result of the fire. The defendant tendered the amount for damage to the ship by fire, but denied the right to recover for general average loss upon the cargo as a risk not within the terms of the policy. The decision was for the delendant on the ground that the general avebe taken to the Court of Appeals. about twenty cases in the Superior Court de

place where the disembodied spitits live is similar to this world, except that the nir is clearer, the colors brighter, the waters clearer and the inhabitants happier. Everything is described as more beautiful than here, and the picture drawn by her is ravishing.

Her husband, who was 67 years old at the time of his death, appeared to her to be in his time of his death, appeared to her to be in his cach head of a family—\$15 a month; the wages, and retail averages 115 glasses of beer, making the total sales 617,392 S00 glasses, which at five cents per glass, which as five cents per glass, which as five cents per glass, which as five cents per glass. Which as five cents per glass, which the consumer pays for it, will give \$30.870.140 as the amount annually expended to New York for beer alone. It is equal to about \$30 per capita of the entire population, or \$180 per annum for each head of a family—\$15 a month; the wages, and the inhabitants happier. case, to nearly three per cent, upon the total as-sessed raluation of New York, and is within about \$3,000,000 of the total municipal taxation of that heavily-taxed city. The beer score is protably larger than the whisky score, but both together reach a frightful sum:

TO THE PUBLIC.

peculiar state. Her case is a strange one, to which no exact parallel exists within the knowledge of learned medical men who have examined ber.

Dr. Joshua Thorne gives as his opinion that it is one of numerous similar but not parallel cases where, owing to peculiar conditions, the mind is free from the baser material of body and brain and roams at liberty in another sphere from this, being the solution of three solutions and an examine he since the solution of three solutions and parallel cases where, owing to peculiar conditions, the mind is free from the baser material of body and brain and roams at liberty in another sphere from this, being the solution of three solutions are two solutions and an examine has succe. A VALUABLE Medical Discovery

Is a medicine that was discovered by old Nones

BERTHAND, who had been occupied in sick rooms and with the care of sick people, for ever fifty years. It is made purely and entirely of Plants, Herbs and Boots, and is exceedingly agreeable and pleasant to both the taste and smell, being warm, aromatic and spicy. It is a most thorough purgs, cleaning out the howels without pais, and without natises or sickening. It does not weaken, and leaves the system open and free, never drying up the howels afterwards, as every other purpo that we know of does. It can be given to infinite and invalids with safety, and in every case of old or young, it is guaranteed to care the worst cases of constipation, indigention, and all discuss that affect the stomach and bowels. It is, moreover, a powerful etimulator and INVIGORATOR OF THE LIVER. Its effects upon the blood and humors is something real-ly astonishing, and is much more immediate and thorough than that of any other parties yet discovered, having this great advantage, that when it has, by its deparating powers, set from in the system the poissons of Serofule, Salt Eheste, Malignant Clerous Street, and Concurred gatherings or lumps, it instant-ly carries them out of the body by purging the bowest. No other purifier does this; with all of them the patient must take pills, or some other equally cons dose of physic, or if they do not, the poists ins in the system, and goes back into the blood REUTER'S LIFE SYRUP is exceedingly bowels, and does all the work required to effect com-
